

WE PRODUCE WELL-CONCEIVED LOGISTICS  
AND WORKSHOP CONTAINERS  
FOR THE ENERGY SECTOR

GMBH & CO. KG

Are you searching for a complete mobile workshop in one single container?

We make it happen!

We have been supplying the energy industry with a variety of different products for more than 20 years.

Our containers are deployed internationally for the mobile maintenance of technical facilities, as a workshop or spare parts storage.

Depending upon  
your requirements:

an 8 foot container for complete  
spare parts storage

To ensure safe arrival:  
every tool can be  
individually secured

Wing parts for the Airbus  
are transported in this  
40 foot container

## Individual equipping and a multitude of possibilities

Container dimensions ranging in length from 8 to 40 foot  
in their creation and expansion, as well as container equipping  
that is aligned to your requirements and applicable safety regulations

Extensive experience, thanks to numerous workshop containers  
that are already in use

In addition to this, our mobile utility rooms also offer a large number of useful features such as:

climate control /air conditioning, insulation, second inner door...

integrated electrical installations, running rails and ramps for safe loading and unloading of sensitive cargo,

global container tracking with GPS tracking airsecureC4™

PC and camera for monitoring the storage and withdrawals securiumC4™

data capture reliability by means of personalised PIN code
